CHANCENKARTE · §20A AUFENTHG

Work authorization

How the 20-hour limit and the two-week trial actually work

The Chancenkarte is often read as capping Arun at 20 hours of work per week. That limit — and the two-week trial-employment option below — applies only to the active job-search phase. Once an offer is signed, the permit is converted to unrestricted full-time work authorization. No employer sponsorship or visa procedure is required at any point.

THE PATH TO FULL-TIME EMPLOYMENT

RISK-FREE BEFORE YOU COMMIT

Two-week full-time trial employment (Probebeschäftigung)

The Chancenkarte itself already permits a full-time trial period of up to two weeks per instance — repeatable or run in parallel with other steps. No permit change, no paperwork, no cost: an employer can simply try Arun full-time before deciding to hire.
